Sebastian Baciu

Hardworking College Student seeking employment. Strong organizational abilities with proven successes in managing multiple academic projects. Proficient in various platforms, languages, and embedded systems. Able to effectively self-manage during independent projects and collaborate as part of a productive team. My academic achievements are a testament to my dedication and hard work, and I am confident that I can bring the same level of dedication to any professional setting. Skilled in critical thinking and problem solving with the ability to adapt to new situations. Committed to lifelong learning and professional development.

WORK EXPERIENCE

Game Tester at Ubisoft Romania
Project
(03/2022 - 03/2022)

- Adept in diagnostic testing and troubleshooting.
- Performed automated testing tasks and developed complex features routinely.

SAP FI at NTT Data Romania
Intern
(11/2021 - 01/2022)

- Got called for another internship at NTT DATA. This time the internship revolved around the Finance platform integrated into SAP.
- Skipped getting accustomed to the application and really dove into the functionalities of the FI module.
- Brought forth the ability to work well independently and also with others.

SAP SD at NTT Data Romania
Intern
(05/2021 - 07/2021)

- Served as a dedicated and supportive Intern in a fast-paced environment.
- I learned to use the SAP platform both as a user and as a consultant.
- By the end of the internship, I learned how to use the SPRO platform to make suitable changes and fix issues.

EDUCATION

Faculty of Economics and Business Administration
Masters, E-Business
(10/2022 - Present)

Faculty of Economics and Business Administration
Bachelor, Business Information Systems
(10/2019 - 06/2022)

- Got out of my comfort zone and learned new things.
- Some of the technologies used: C#, ASP.NET, PHP, Laravel, SQL, PL/SQL, MongoDB, HTML, CSS, SASS, Java, R, Python, Prolog
- I mostly enjoyed working on practical projects in teams or alone and my thesis.
- For my thesis, I developed an e-commerce website using mainly Laravel and MySQL.
